

PRESS RELEASE

Introducing the X1 MF 80-Watt, Multi-Function, AC/DC Charger

Introducing the one, the only, X1 MF from Hitec! This 80-watt AC/DC computer-controlled battery charger is the beefed-up brother to our X1 AC Plus. Economically priced and portable, this single port, compact charger has a rotary dial design for intuitive menu navigation and effortless operation. Its unique features include a built-in motor RPM and servo tester. The universal balancing board supports most batteries on the market. Upgradeable firmware ensures you can keep it up to date as battery technologies evolve. The X1 MF is truly the ONE for beginner and sport level electric airplane and helicopter pilots and racers looking for convenience and reliability. Grab one today and get going!

Hitec! Taking Charge of all your Hobby Needs!
